Application Fee

Checks:

According to Department accounting practice, checks submitted with a CON application must be dated within 60 days of the CON application to be considered received. If an outdated check is received with an application, the Department will not process the application until a valid check for the required application fee is received. Upon receipt of the valid check, the application will be processed pursuant to the applicable Administrative Rules.

Online Electronic Funds Transfer:

Application fees may also be paid using the online electronic funds transfer option with an electronic submission of an application through the CON e-Serve Application System (CEPAS).
